October 13, 1998

SUBJECT: Package Evaluation Optimization, MIL-PRF-38534, FSC 5962

Mr. Dan Miller
M. S. Kennedy Corporation
8170 Thompson Road
Cicero, NY 13039-9393

Dear Mr. Miller:

We have reviewed your proposal to reduce the sample size during package evaluation based on package lot size and/or plating lot size. Because of the reasons and examples specified in the M. S. Kennedy fax dated September 11, 1998 and because of your history with your package vendors, the proposal as outlined in the above fax is acceptable for use on compliant products. Even though MIL-PRF-38534 allows alternate methods of testing, your company is responsible for the overall quality and reliability of its products.

If you have any questions, please contact Mr. Eschmeyer.

Sincerely,

A handwritten signature in cursive script, appearing to read "Joseph Gemperline".
